Worksheet · Predict – Observe – Explain

LudensFlow

WHAT YOU'RE TRAINING NOW

What do you already know?

First you pull up what you already know. New things stick better to something familiar.

The experiment or the question

1 · Prediction

What is going to happen? Write it down before you look. And why you think so.

2 · Observation

What do you really see? Only what you see, no explanation yet.

3 · Explanation

Why did this happen? Use the words from the lesson.

Did your prediction hold? ○ yes ○ partly ○ no

What was different from what you thought?
