IN CLASS YOU TRAINED

Until it runs on its own

You do it again and again until it runs on its own. Then your head is free for the hard part.

How to do it at home, with this week's material

1. Not all at once: three short goes this week, for example Mon · Wed · Fri, a quarter of an hour.
2. Mix the problems. Not ten of the same kind in a row, but mixed, so you first have to see which kind it is.
3. Wrong? Back on the pile. Again tomorrow, until it runs on its own.

Day	What I practised (mixed)	Right / wrong

What still came back, and goes first tomorrow

How did it go? ○ yes ○ partly ○ no
